10 important things you should know about Confined Space

1. Air Testing is always required- even for a Non Permit Space
2. Hazard Elimination required- even for a Non Permit Space
3. Crew must be trained in all aspects of CS
4. Other considerations such as Heat, Fire, Energized Circuits
5. The Safety attendant must be placed on Hole Watch and stay in contact
6. A rescue plan is always required for permit CS
7. Written permit is required and should be updated every shift
8. Continuous evaluation of Air Quality may be required.
9. Ventilate and Isolate the CS.
10. Communication with crew and how will we do this.
